

PIER CLEANERS

YOUR CLOTHES ARE WORTH IT.

The Converta Bag is a 25" x 54" reusable garment bag.

This converts from a laundry bag into a garment bag very simply; just loosen the drawstring and all the bag to fully open to cover your garments. This bag is used rather than using plastic bags; which are a petroleum product and generally thrown away after use. By using these bags, not only do your garments come home clean, they reduce the amount of plastic used. You can

get a converta bag by simply going to any of our Pier Cleaners locations.
